

11 Chatham Dr has 1 dead tree that needs to come down.

My neighbor pointed out a large dead branch that caused his attention. I brought in Ben Miller owner of Tree resolution who indicated the tree is dead and needs to come down, not just the branch. I got a 2nd opinion from J&A landscaping who also said the tree is dead and needs to come down,

The tree was scarred from many years ago from heavy equipment perhaps when a retaining wall was put in prior to my purchase of the house. The scar did not heal, and termites got in.

I was told to replace with a Red Maple as I have on the front of the property
