---	--

1. Prior to your installation, please remove pictures, paintings, collectables, etc. from the exterior walls.
2. The materials will be delivered the business day prior to your installation and the dumpster will be delivered the day of the installation. Please have all cars removed from your garage and driveway to accommodate these deliveries. The dumpster, in most cases, will be removed within 24-48 hours of the completion of your project.
3. If you have the ability, please move outdoor furniture and yard ornaments away from the sides of your home.
4. Please trim back any landscaping which may interfere with the installation.
5. All materials that are not used are returned to the warehouse. Extra materials are always on site to assure for a smooth install process.
6. The installation process involves a lot of nailing into the exterior of your home. This may cause nail pops or tile damage. These potential challenges are not Power's responsibility.
7. Keep a close eye on your family and pets during the install process. Your property will be an active work site and may not be safe for your family or pets without proper supervision.
8. The project foreman will be available for any questions during the installation. Please feel free to walk around with the foreman to inspect the quality of work.
